3. En caso que no tenga JAVA seguir los siguientes pasos:

Step 1 GET THE REQUIRED SOFTWARE

If you have already downloaded and installed Java, you may skip this step and proceed directly to step 2.

Select your operating system

Microsoft Windows

Note:
When the "File Download" window appears, click on **"Run"**.

Installation will take approximately 20 minutes on a 56kbps dial-up connection and 1.5 minutes on a high-speed connection.

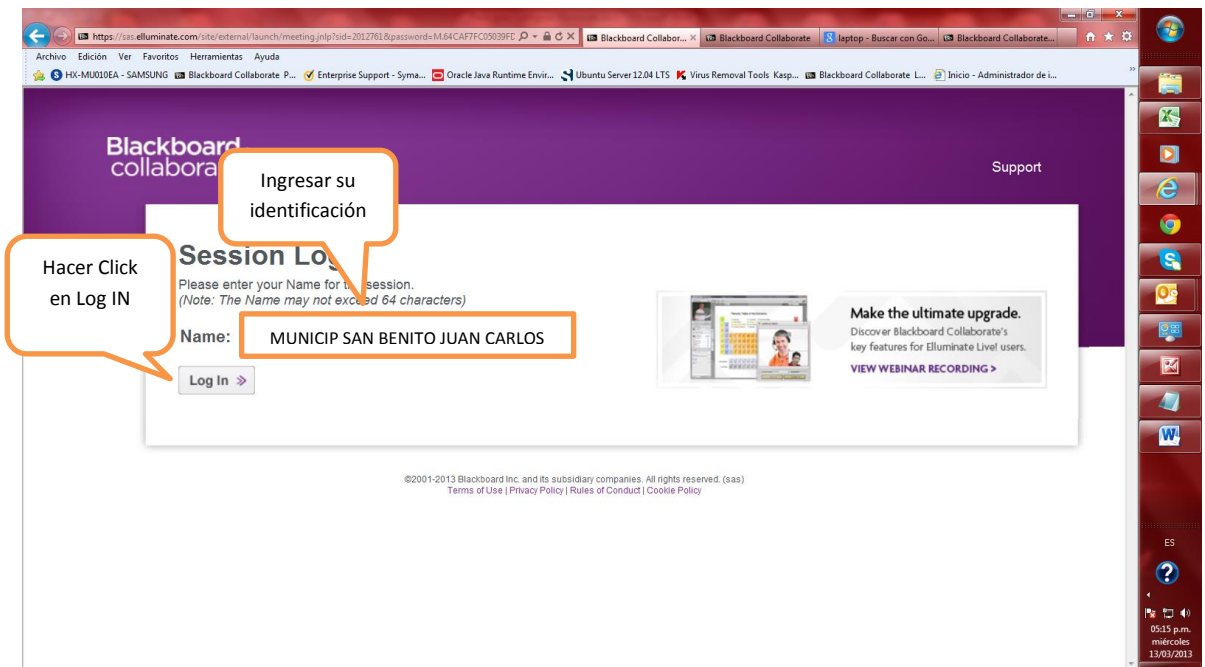

Were you unable to download or install the Java Run Time environment? For trouble shooting information, please visit our "First Time Users" section in the [Support Portal](#).

Step 2 BEGINNING YOUR SESSION

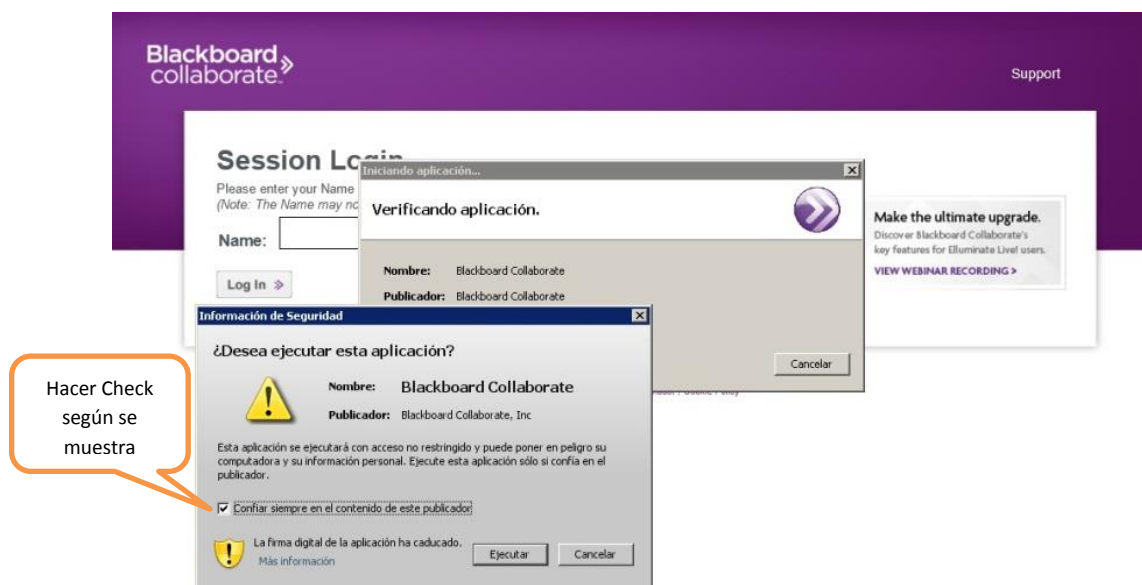

Optionally, you can pre-configure your computer and audio using one of our Configuration Rooms prior to session. Please visit our "First time Users" section in the [Support Portal](#) view configuration rooms for Blackboard Collaborate conferencing.

Note: When joining a Blackboard Collaborate web conferencing session for the first time you will see a Security Dialog. Blackboard Collaborate web conferencing is asking for you to run this application without a verification of its digital signature. Due to the dynamic abilities of our software we are unable to sign certain application files. Check **"Always trust content from this publisher"** and click **"Run"**.

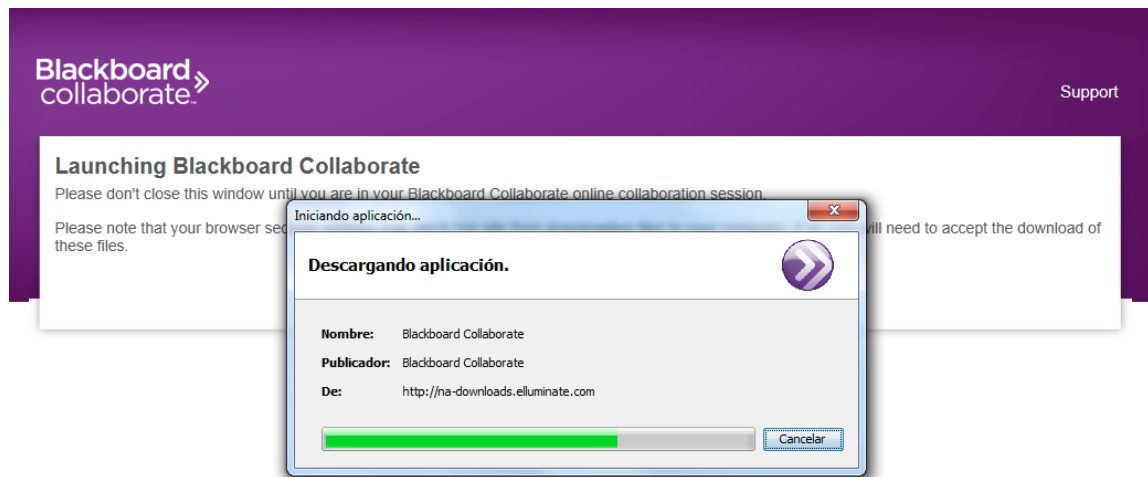

4. Al ingresar al link de Blackboard collaborate les va a solicitar ingresar un nombre de identificación de cada Municipalidad/DIRESA/RED por ejemplo (MUNICIP SAN BENITO JUAN CARLOS), luego dar enter o click en Log in.

5. Click en confiar siempre en el contenido de este publicador y después dar click en ejecutar.

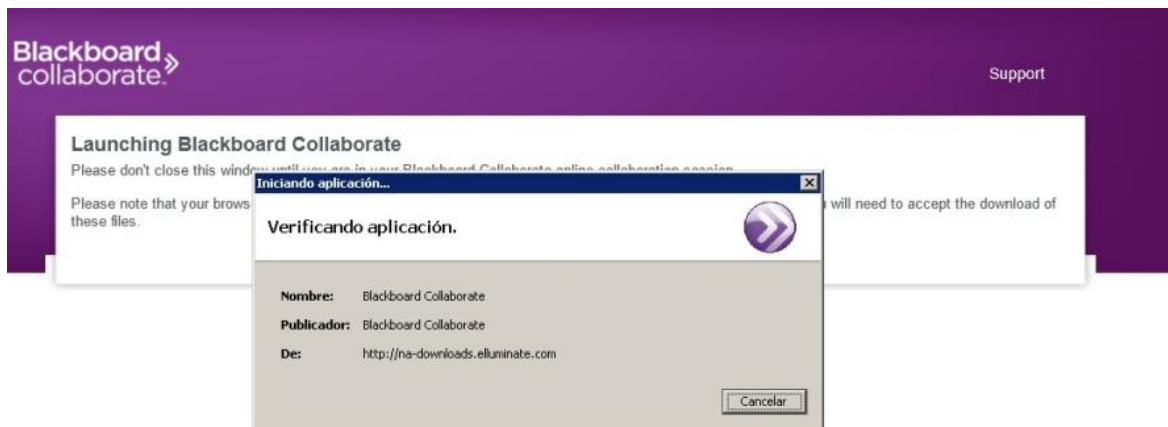

5.-Empezará a descargar el archivo de ejecución de Blackboard Collaborate

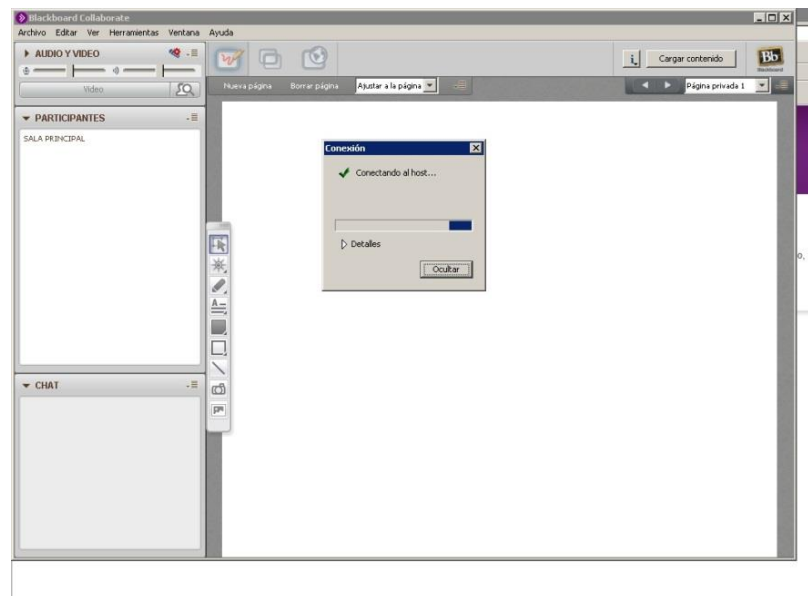

6.- Seleccionar la velocidad de conexión de su red tal como se muestra en la figura adjunta:

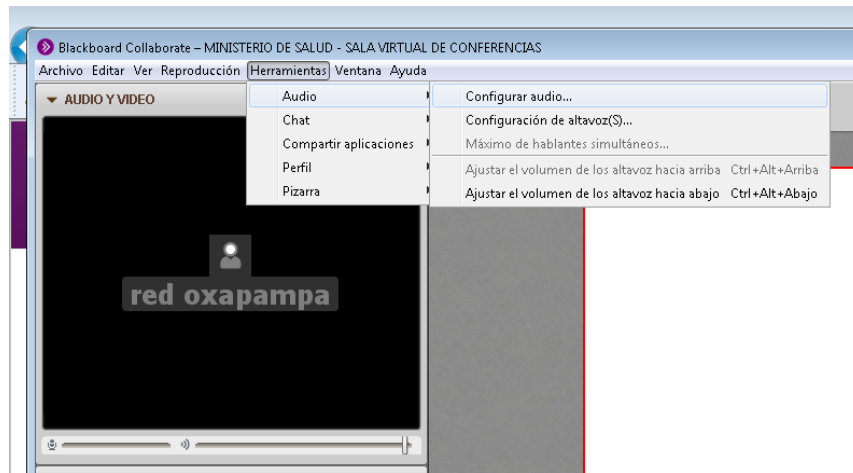

7.- Esperar que termine la Validación:

8.-Esperar que termine de conectar el host.

9.- Probar el audio en Blackboard collaborate en la opción Herramientas/audio/configurar audio/ y hacer las pruebas correspondientes.
